

## Low Voltage Modulating Thermostat

Manufacturer: Erie

Model: TA168-008

Features: Digital Non-Programmable  
1 Heat / 1 Cool  
Manual or Auto Changeover

Plus... Continuous and Cycling Fan Control  
0-10 VDC or 4-20 mA Outputs  
Remote Setback Capability  
Remote and Seasonal Changeover Sensor  
Built-in Purge Cycle

### Description

The TA168-008 microprocessor based thermostat/controller with digital display provides either a 0-10 VDC or 4-20 mA control. This thermostat controls a variety of two-pipe and four-pipe fan coil units, air handling units, heat pumps, unitary equipment, and various heating and cooling applications.

The microprocessor provides precise and stable control under varying system capacity and load conditions, without the need for tuning and calibrating the control system in the field. The digital display of set point, ambient temperature and operating mode provide the user with an attractive and functional controller that is easy to use.

The TA168-008 thermostat is compatible with all standard 24 VAC heating and cooling systems and is mercury-free, not only making it environmentally safe, but eliminates the need for leveling.

### Specifications

Rated Voltage: 20-28 VAC, 24 nominal

Power Consumption: 25mA, Maximum at 24VAC

Fan & System

Switch Ratings: 24 VA at 24VAC  
125 VA at 120/277 VAC

Heating / Cooling

Output Ratings: 10 VA at 24 VAC

Setpoint

Adjustment Range: 50° to 90°F (10° to 32°C)

Thermostat

Measurement Range: 32° to 130°F or 0° to 55°C

Minimum Deadband: (between heating and cooling)  
3°F or 1.6°C

Proportional Band: 2°F or 1°C

## Model Selection

Model Number	Description	List Price
TA168-008	1 Heat / 1 Cool digital thermostat w/ manual or auto changeover plus 5 unique features	\$445.00 ea.

## Accessories Selection

Model Number	Description	List Price
65406	Remote and seasonal changeover sensor	\$26.50 ea.
65345	4" x 4" Adapter plate	\$18.00 ea.

## Features / Benefits / Applications

- Digital LCD display
- 0-10 VDC or 4-20 mA Outputs
- Manual or automatic changeover
- Continuous and Cycling Fan Control
- Remote and seasonal changeover sensor
- Built-in purge cycle assists the controller to determine heating or cooling mode
- Selectable Celsius or Fahrenheit temperature display
- Remote setback capability from a time clock or energy management system
- Quick wire terminal block
- Environmentally safe
- Mercury-free
- No leveling required

## Specifying Information

The EM Warehouse has many years of experience in spec writing, design-build and interpretation of written specifications. If we can assist you in this area just E-mail your requirements to [emw@ecs-controls.com](mailto:emw@ecs-controls.com).

## Ordering Information

Please contact an EM Warehouse (EMW) representative for the following:

- Wholesale Discount Multiplier - Issued to resellers, contractors and holders of an EIN.
- Retail Discount Multiplier - Issued to individuals and non-holders of an EIN.
- Quantity discounts - Let us help you save money when you need large quantities.
- Application for a line of credit - Submit an application, free of charge, for an open account.
- Product assistance - Receive help in selecting the right product for your needs and applications.
- Order placement - Place your order and receive confirmation on delivery.
- Request manufacturer data sheets - A detailed description of the product information and schematics.
- Request addition information - We are here to assist you in finding answers and alternatives.

The EM Warehouse (EMW) accepts: VISA, Master Card & American Express credit cards.

You can reach us by the telephone and fax numbers listed below or E-mail us at [emw@ecs-controls.com](mailto:emw@ecs-controls.com). Customers out-of-state can reach us using our 1-800-642-0538 toll free telephone line.

We look forward to servicing both you and your control needs now and in the future.
